THE BEST AND MOST VALUABLE AGRICULTURAL IMPLEMENTS AND MACHINERY, exhibited at the State Fair in 1850, will be seen by the award of Premium below. miums below:

Awarded to E. Whitman, jr., No. 56 Light street, Baltimore, by the Maryland State Agricultural Society, at their 3d Annual Fair, held in Baltimore 23d, 24th and 25th of Catalogs. 36

I Annual Fair, new in the ploughing match for the best Ploughing with ox team, (special pre-

nium.)

For the best plough on exhibition, let premium

For the best Railway Horse Power, Whitman's In

For the best Railway Horse Power, Whitman's Im-proved, 1st premium

For the best Hay Press, 1st premium

For the best Ford Roller, 1st premium

For the best Ford Roller, 1st premium

For the best Corn-Stalk Cutters and Grinders, 1st

For the best Field Roller, 1st premium

For the best Corn-Stalk Cutters and Grinders, 1st premium

For the best Churns. 1st premium

For the best Haynakes, 1st premium

For the best Haynakes, 1st premium

For the best Haynakes, 1st premium

For the best Cultivator, 1st premium

No exhibitor of Agricultural Implements at the above named Fair, having received one-half the amount of premiums awarded us on the different kinds of Implements and Machines, it is conclusive evidence that ours were considered the best and most valuable on exhibition.

At the great Fair of the Maryland Institute, for the promotion of the Mechanic Arts, held in Baltimore in October and November, 1850, the first premium (a heavy Silver Medal) was awarded to Egra Whitman, jr., for the largest and best display of Agricultural Implements. Also first premium (another Silver Medal) for his Improved Wrought Iron Railway Horse Power, which was made for exhibition at the World's Fair, in London, in May, 1851.

Our stock this season will be the largest ever offered in this city, and probably the largest in the world, consisting of more than 8,000 Ploughs, 250 Threshing Machines, 1000 Wheat Fans, 1000 Corn Shellers, 500 Straw Cutters, 500 Cultivators, Reaping Machines, Wheat Drills, Corn and Cob Crushers, Burr Stone Mills, Cider Mills, Hay and Cotton Presses, together with every article which a farmer or planter could wish in the prosecution of his pursuit; all of which will be sold on reasonable terms, at wholesale or retail.

Through in siz minutes. For the preparation of
Ice Creams, Water Ices, &c.—Patented Sep-

Through in six minutes. For the preparation of Ice Creams, Water Ices, &c. —Patented September 19, 1848.

The distinguising merits of this Apparatus are—
1st. The astonishing rapidity of the process, surpassing belief—bence the name.
2d. The Cream during the progress of freezing becomes charged with atmospheric air, by which it nearly doubles in bulk, and obtains that peculiar smoothness, lightness, and delicacy of flavor, for which the Ice Cream of our best Confectioners is so highly prized.
2d. It does not require a tenth part of the labor that the common Freezer does.
4th. It does its work better, producing a better article, in every respect, than by any other mode.
5th. There is a considerable saving in ice, as the tub needs no replenishing during the operation.
The annexed testimonial from the Proprietor of the Eutaw House will put to rest all doubt.

"Having witnessed the process of freezing Ice Cream in Austin's Magic Freezer, two quarts of Cream having been frozen in the incredible short time of six minutes, I cheerfully recommend it to the public."

If E. JACKSON,

Eutaw House, Baltimore, May 15, 1848.

"This is to certify, that during the summer of 1848, I used one of Austin's Patent Ice Cream Freezers of the largest size, (10 gallons,) making from 10 to 50 gallons per day during the senson; and so far as regards expedition and power, I consider it deckledly the best freezer now in use, as I have had with it no difficulty in making ten gallons of superior quality Ice Cream from five of plain Cream, in thirty minutes from the time I commenced working it.

Manufactured and for sale by the patentee.

AMERICAN HOUSE. Hanover street, Boston.

MERICAN HOUSE, Hanover street, Boston

AMERICAN HOUSE. Hanover street, Boston.

THE Undersigned having entirely rebuilt and enlarged the above extensive establishment, containing in all about three hundred and fifty rooms, would respectfully give notice that it is now ready for the reception and accommodation of the travelling community.

An extended notice of the unsurpassed conveniences of this House is deemed superfluous, as the numerous improvements which have been made cannot be properly given in an advertisement. Suffice it to say that no expense has been spared to render any spartment perfect.

The furniture was made expressly to order, regardless of cost, and certain portions of it, especially the Drawing-rooms, will be found to be of the most beautiful and tasteful manufacture. The Dining-rooms are capacious, and the hours for meals will be so arranged as to suit the convenience of the early and late.

Every department will be conducted in an unexceptionable manner, and the Proprietor pledges himself that the American House shall be truly the Traveller's Home, mar 24

DELAWARE COLLEGE. THE Faculty of Instruction of this Institut its present organization, consists of the named Professorship, to wit: A Professorship of Mental and Moral Science

A Professorship of Mathematics and Natural Philephy,
A Professorship of Rhetoric and Belles-Lettres,
A Professorship of Chemistry and Natural History,
A Professorship of Civil Engineering,
A Professorship of Modern Languages and Drawing,
The Collegiate year is divided into two sessions or ter
of twenty-one weeks each. The first session commen
on the fourth Wednesday of October; and the second
the fourth Wednesday of April. Each is followed by
vacation of five weeks. COURSE OF INSTRUCTION.

PRESHMAN CLASS.—I. Livy, begun; Xenophon's Anabasis; Algebra, begun; History, begun;
H. Livy, finished; Homer's Odyasey, begun; Algebra, finished; Geometry, begun; History, continued.
HI. Horace, begun; Homer's Odyasey, finished; Geometry, five books; History, finished.
JUNIO CLASS.—I. Tacitus, begun; The Prometheus of Kachylus and Electra of Sophocles; Analytical Geometry, finished; Calculus; Natural Theology; Evidences of Christianity.

pides: Tacitus, finished; Natural Philosophy; Mechanics, begun.

III. Moral Philosophy; Plato's Gorgias; The Captive of Plautus; Mechanics, Hydrostatics, Pneumatics, and Meteorology.

Sornomoral Class.—I. Horace, finished; Xenophon's Memorabilis; Geometry, finished; Rhetoric, begun.

II. Cleero de Amicitis and de Senectute; Herodotus, begun; Plane Trigonometry; Spherical Trigonometry; Rhetoric, continued.

III. Cleero de Officiis; Herodotus, finished; Surveying; Analytical Geometry, begun; Rhetoric, finished.

II. Elements of Criticism; Butler's Analogy; Cicero's Tusculan Questions; Demosthenes de Corona; Voltaic Electricity or Galvanism; Electro-Magnetism, Magneto-Electricity, Electro-Dynamics; Astronomy, begun.

III. The Constitution of the United States; Astronomy, finished; The Science of Heat; Thermo-Electricity; Chemistry and Geology.

PHILOSOPHICAL APPARATUS.

PHILOSOPHICAL APPARATUS.

PHILOSOPHICAL APPARATUS.

The College is provided with a Philosophical Apparatus that furnishes ample means of experimental illustration in all the different branches of Natural Philosophy. The sum of three thousand dollars has recently been expended partly in this country and partly in London and Paris, in the purchase of new apparatus, adapted to the present advanced state of the Physical Sciences.

EXAMINATIONS.

At the close of each study, or branch of study, the members of the class are carefully examined, and, at the close of the year, in all the studies of the year, in the presence of a Committee of the Trustees; and their attainments are communicated to the Board of Trustees. RELIGIOUS INSTRUCTION.

RELIGIOUS INSTRUCTION.

In addition to daily morning and evening prayer, divine worship is held twice on every Sunday, and the recitation on Monday morning is always in the Greek Testament. At the request of his parent or guardian, a student is permitted to attend any place of worship which himself or the parent or guardian may select. One member of the Faculty will attend at each of the different places of worship (Presbyterian, Episcopalian, and Methodist) in the village, and note all absentees.

Two at least of the Professors, with their families, will reside in the College buildings, and will board at a common table with the students, who are required to occupy such rooms as may be assigned them by the Faculty.

ADMISSION.

In order to admission to pursue the entire course, a

ADMISSION.

In order to admission to pursue the entire course, a student must be at least fourteen years of age; must give satisfactory evidence of good moral churacter; and must sustain an examination in the following studies, viz:

Arithmetic, Elements of Algebra, Latin and Greek Grammar, Jacob's or Felton's Greek Reader, and the first two books of Xenophon's Anabasis, Jacob's or Doering's Latin Reader, Sallust or Cuesar, Cicero's Select Orations, and Virgil, or what shall be deemed equivalent.

EXPENSES.

ENTRANCE FER.—If the student enter as Freshman, five dollars; if as Sophomore, ten dollars; if as Junior, fifteen dollars; in as Senior, twenty dollars;

Tuition . \$21 00 \$21

refunded.

Board is furnished with the families of the Professors at two dollars per week.

Washing, at the usual rates.

All dues are payable in advance. The tuition is remit ted, on application, to all students designed for the Min Istry.

The tuition fee for Modern Languages will be eight dollars per session, to be paid to the Instructor in ad-

vance.

For students who do not design to prosecute the whole Course required for a degree, a more limited range of studies is furnished, adapted to the sphere and course of life of each individual, so far as such can be reasonably anticorded.

The studies of this Course are arranged under the following departments, to wit:

1st. A MATHEMATICAL DEPARTMENT—In which, beginning with Arithmetic and Algebra, the student will be carried, teriatim, through all the higher branches of the Mathematics, ending in their application to Natural Philosophy, Astronomy, &c.

2d. An Escusist Department—Comprising instruction in Orthography, Reading, Elecution, Grammar, Writing, Geography, History, Composition, Rhetoric, Logic, Intellectual Philosophy, Moral Philosophy, Political Grammar, Story on the Constitution, Philosophy, Ornithology, Natural Theology, Elements of Criticism, and Evidences of Christianity.

Story of the Clements of Criticism, and Evidences of Christianity.

3d. A Mercantile Department—In which will be imparted an acquaintance with all that is necessary to qualify youth for the immediate duties of the counting-house, including—

1. Pennanahip—By an original and popular system of this art, which invariably produces a bold, finished hand, peculiarly adapted to the purposes of the accountant and business man.

2. Arithmetic—Comprising numerous abbreviated methods of computing Interest, Discount, Equation of Payments, &c., and other mercantile calculations founded on per centage; together with all such operations as are requisite for a thorough knowledge of the business of the counting-room.

quisite for a thorough knowledge of the business of the counting-room.

3. Book-keeping—Single and Double Entry, by the most approved methods. A complete course of instruction in this branch will be furnished, designed to fit the student to take charge of any set of account books.

4th. An Auricultural Department—Comprising a selection from the English and Mathematical courses; and, also, Surveying, Botany, Mineralogy, Geology, Chemistry, and Agricultural Chemistry; the last two illustrated by experimental lectures.

5th. A Civil Engirer Department—In which are taught Arithmetic, (mental and written.) Algebra, (men-

oxperimental lectures.

5th. A Civil Engineer Department—In which are taught Arithmetic, (mental and written.) Algebra, (mental and written.) Geometry, Trigonometry, Surveying, with the use of instraments in the field, Practical Engineering, Architecture, Perspective, Draughting, and Topography.

6th. A Teacher's Department—The course of study will consist of a judicious selection of subjects from the other departments, including all the branches pursued in our common schools. Practical Lectures will also be given on School Teaching, both as a science and as an art.

Pupils will not only thus receive the fullest instruction relative to the best and most popular methods of teaching, but they will also have opportunities of exemplifying them, by hearing recitations in the lower departments of the Institution.

7th. A Department of Modern Landrades—In which students who wish to take a thorough course can have an opportunity of doing so; while others, whose object may be to acquire sufficient knowledge to translate with facility, and to prenounce with tolerable correctness, in as short a time as possible, are also provided for.

Newark Academy.

Newark Academy.

By a late re-organization of this department of Delaware College, the Board of Trustees have taken measures to place it upon a new and improved foundation, and to endow it with advantages possessed by few similar institutions in the country. The Academy, heretofore merged in the College, and of course subjected to all the swils which have been found to attend the amalgamation of the two departments in the same building, and under the same government, now enjoys the privilege of a separate establishment, without losing those which result from its relation to the College proper.

A large and elegant edifice, with all the necessary fixtures of a complete boarding establishment, has been creeted and furnished, in which the students of the Academy board, under the immediate charge of the Principal and his Assistants; and all its exercises are conducted on a system of its own, uninterrupted by the interests or operations of the other department. The furniture of the study-rooms and dormitories has been chosen with peeular reference to comfort and convenience for study; and no expense has been spared in providing the apparatus measure to render the means of instruction complete; giving to Newark Academy facilities for prices study and comfortable accommodation of students, fully equal to those afforded by many of our colleges.

From its intimate relation to the College, students of the Academy enjoy many advantages not generally ôbtained at institutions of this kind. Those who wish to pursue some particular branch which falls more properly within the College course, may be admitted to recite in any of the College clauses. Students also of proper age and discretion, by recommendation of the Principal, and permission of the Faculty, may enjoy the use of the College Library without additional charge. Admission also may be had to the Lectures, and such other privileges of the College as can be profitably enjoyed by scademical students.

the College as can be profitably enjoyed by academical students.

The charge for Boarding, Washing, Fuel, Light, &c., with tuttion in the English, Latin, and Greek, is seventy dollars for the Summer Session, and seventy-five for the Winter Session. The only extras are one dellar persection for incidental expenses, and a fee of eight dellars for Modern Languages, and a fee of five dellars for Drawing, from those who enter these thases. The sessions and vections of the Preparatory Department art the same as those of the College.

Rev. MATTHEW MEIGS, A. M., Rev. MATTHEW MEIGS, A. M.,

Newark, Delaware,

President of Delaware Col

WILMINGTON BOARDING SCHOOL
FOR BOYS.—This institution is situated in one of the healthnest parts of the city of Wilmington, entirely beyond the settled perfons of the town. The uniform healthfulness of the location may be interred from the fact that, since the establishment of the School, about twenty-eight years, very few cases of serious indisposition have occurred among the pupils, and not a single death either here, or from theseese contracted while here.

The course of instruction includes, besides the ordinary English branches, Natural Philosophy, Cheatistry, Physiology, History, Rhetoric, the various brauches of Mathematics, and the Latin, Greek, and French Languages. Particular attention is paid to the higher Mathematics and their application to Mechanics and Engineering; the latter and Surveying are taught practically by field operations, with the use of appropriate instruments. Lectures on Natural Philosophy and Chemistry, in which all the important principles are illustrated by experiments, are regularly delivered before the students.

As the object is to make the instruction as thorough and practical as possible, no expense has been spared in providing suitable apparatus. It is believed that, in this respect, the Institution will compare favorably with any similar one in the country. A carefully selected library, of more than one thousand volumes, containing works on the various branches of laterature and Science, furnishes ample reading matter; while a Laboratory, fully supplied with apparatus and tests, contains all that is necessary for practical instruction in Chemical Manipulation.

The school year commenced on the third Second-day (Monday) of the Ninth month, (September), and is divided into four quarters of elevan weeks each, leaving a vacation of two months, from about the middle of the Seventh month (July).

THE TESTIMONY OF ONE OF OUR LAWYERS.—
Mr. JAS. L. HAMILTON.—BEAR Siz: Although the number and respectability of the testimonials of which you are already in possession, as to the efficacy of your Medicine, "THE GREAT VA. REMEDY," in the diseases which it is designed to cure, are sufficient, in my opinion, to establish its reputation, and secure for it such patrobage as will adequately reward you for the discovery of so inestimable a Medicine—yet the great benefit which I have derived from its use, and the salutary effects which I have witnessed from its employment in the cases of several friends, to whom I had recommended it, constrain me to contribute, for such use as you may think proper to make of it, this formal acknowledgment of its sanitary virtues. My own case was Dyspepsia of long duration, and very aggravated in its character, manifested by an almost total destruction of the digestive functions, great debility, nervousness, emacation, and impaired appetite, with pain, and a burning sensation in the left side of the chest, palpitation of the heart, vertigo and congestion in the head, and many other symptoms indicative of the worst type of the disease, by the use of three or four bottles of your preparation, been entirely releved. The cases of my friends, in which your Medicine was taken, were Dyspepsia, Chronic Headache, and Sore Throat, in all of which it proved efficacious, after the trial of a vast number of other remedies without benefit. Your medicine is as pleasant to the taste as a cordial, and in my experience corrects all derangement of the stomach, restores the wasted or enfeebled energies of the digestive organs, and imparts strength and reanimation to the whole system.

Very respectfully, yours, &c.

VALUABLE LAW BOOKS. WE invite the attention of the Profession, and others desiring Lew Books, to our very extensive stock, which, we believes, contains the best assortment of American Publications in the United States. Particular attention given to furnishing or completing Libraries for the Departments, Associations, and States.

Orders by mail promptly and carefully executed.

English Common Law Reports,

English Common Law Reports,

58 Volumes, with a complete Index to the first 47 Volumes.
Since volume 39 of this series, The English Common Law
Reports have been reprinted in full. With volume 44, we
commenced binding each English volume separately, instead of, as formerly, two English in one American volume.

Price—For the first 43 vols., \$3 50 per vol.

For the succeeding, 2 50 "

The reputation which these Reports maintain in England and in the United States is known to all the Profession. The low price at which they are offered, compared
with the rates of some of the principal American Reports,
of even inferior merit, recommends them particularly to
the attention of those purchasing Libraries.

the attention of those purchasing Libraries.

A General Index to the first 47 Vols. of the English Common Law Reports.

By Hon. George Sharswood and George W. Biddle, Esgrs. 1 vol. 8vo.—\$5 00.

With this Key to their contents, the English Common Law Reports present to the Profession a mass of legal learning in the shape of Opinions, Data, elaborate Arguments, &c., &c., sufficient, probably, for the Elucidation and Prosecution or Defence of say case that can arise in our Courts of Law; and being thus made easily and instantly accessible, these Reports will be found so comprehensive, convenient, and cheap, as to supersede the necessity of other or more expensive scales.

The Index will be found of great value to all possessing the Reports; and of great convenience to those having access to, but not owning the series.

New English Exchequer Reports-Pleas and

To be reprinted in full, in best style, with American Notes, by J. I. CLARK HARE and H. B. WALLACE, Esqrs, at \$2 50 per vol., bound.
Including McClelland and Younge, Younge and Jervis, Crompton and Messon, Crompton, Messon and Roscoe, Messon and Younge and Collyer—in Equity.

Equity.

Messon and Welsby, in 19 vols., Welsby, Huristone and Gordon, vol. 1, published and ready for delivery.

We take pleasure in referring to the accompanying the state of the state

The We take pleasure to the character of these Reports, at their value to the Profession in this country:

CAMBRIDGE, January 25, 1845.

CAMBRIDGE, January 20, 1000.

Messrs. T. & J. W. Johnson:
Gentlemen—In reply to your letter, I can with great sincerity say, that I entertain a very high opinion of the recent Exchequer Reports. In my judgment they are not excelled by any cotemporaneous Reports, in learning, ability, or general utility and interest. The cases decided are discussed with great care, and expounded with uncommon force. I scarcely know of any volumes which I deem of more importance or value for a Professional Library.

JOSEPH STORY.

CAMBRIDGE, JANUARY 25, 1845.

Gentlemen: Your letter of the 24th has been received, in which you ask my opinion as to the value of the English Exchequer Reports, from Price downwards to this time, to an American Lawyer, and as to the expediency of reprinting them in this country. Of the high value of these Reports, both on the Pleas and Equity sides of the Court, I have not the least doubt—the decisions of this Court for the last fifteen or twenty years, both at Equity and in Common Law, being entitled to equal respect with any others in England. I should think an American Lawyer's Library essentially incomplete without them.

I am, gentlemen, very respectfully yours, SIMON GREENLEAF.

Messrs, T. & J. W. Johnson.

Law Library.

Fourth Series—Porty Volumes.

Twelve Dollars a year, bound—Ten Dollars in Numbers.

The cheapest Law Periodical in the United States.

It is our determination to make the Law Library the cheapest series of reprints of English Law publications in this country. The Editorial Department will, we trust, be found fully to realize the expectations of those who have enjoyed Smith's Mercantile Law, Touchstone, Broom's Legal Maxims, Archbold's Nisi Prius, Archbold's Lamdicord and Tenant, Crabb on Real Proporty, Smith on Contracts.

The high reputation which the "Law Library" has acquired throughout the United States, by the character of its volumes, and by the cheap rate at which its valuable contents have been presented to the Profession, is the best evidence we can ofter of its merits and its claims for your support. We hope, and will alm, to retain this high character. Fourth Series-Forty Volumes.

Leading Cases in Law and Equity. Leading Cases in Law and Equity.

In Three Series—With American Notes.

1. White and Tudor's Leading Cases in Equity, I vol.

Courts. Edited by John Innis Clark Hare, Esq., and

Horace Binney Wallace, Esq.—\$9.

The English Ecclesiastical Reports.

The English Ecclesiastical Reports.
Seen Volumes—\$24.50.

Furnish a series of Decisions in the Ecclesiastical Courts of England and Scotland, from 1790 to 1838, and contain seventeen English volumes condensed in seven.
"We respectfully commend this series to the notice of the Frofession. It contains the only reports of the many important cases of Wills, Settlements, Divorces, &c., and covers the whole of that important branch of the law embraced in this country by the Orphana' Court Practice.
"It would be difficult to point to any English Reports of more general value in the United States, than this selection of Decisions."—Marvin's Legal Bibliography.

British Crown Cases Reversed.

REAL ESTATE IN VIRGINIA FOR SALE.

REAL ESTATE IN VIRGINIA FOR SALE.

THE subscriber has not yet disposed of his real estate
In Prince William county, Virginia. He is still desirous of selling, and will do so on accommodating terms.
It consists, first, of 94% acres of land, in from two and a
half to four miles of Brontsville, the county town, fourteen miles of Occoquan, thirty miles of Alexandria, and
from four to five miles of the Orange and Alexandria Railroad, which will be completed to Brentsville this
year. This land is well adapted to the growth of wheat,
corn, rye, casts, and grass. It is a mixture of the red and
grey soil, and admirably adapted to improvement, by the
use of clover, plaster, guano, &c. If is heavily timbered,
and finely watered, having lasting springs of the purest
water. It is capable of being divided into five or six good
sized farms, and with tolerable buildings and small orchards on four of them. I will redl it all in a body to a
company, or will divide it to suit purchasers, at prices
ranging, according to quality, at from \$\frac{3}{2}\$ to \$\frac{3}{2}\$ per acre. I
will only require one-fourth of the purchase money in
hand, and the balance I will divide in three annual payments, to bear interest from the date of safe, to be secured
on the property. Land is rapidly rising in value in the
neighborhood, and I offer great inducements now, as I
wish to turn my attention to other pursuits.

Secondly. A square of buildings in the town of Brentsville, soitable for a carriage-maker, wheelwright, of blacksmith, with two dwelling-houses, kitchens, blacksmith,
carriage, and wheelwright shops, and other necessary
buildings. \$1600 is now my price for this property—on
the same terms as the land. It is within a mile and threequarters of the railroad.

Thirdly. Nins and a quarter acres of land on the turnpike, just above Buckland, on which are a good dwellinghouse, a large wheelwright shop, kitchen, stable, dairy,
and smoke-house. It would make a good tavern stand,
and the shop a good stable. For this property I wil

tion, but might be easily resuscitated, and is a very good place for the business. For this I will take \$400—on like terms.

Fifthly. A lease lot in Haymarket, with a pretty good house, kitchen, a large shoemaker's shop, stable, &c. The buildings are a little out of order. The lease may run for ten or twelve years. For this I will take \$100.

Sixthly. A valuable farm in Alleghany county, Maryland, containing 200 acres, within eight miles of the National Road, and ten to twelve miles of the Baltimore and Ohio Railroad. This farm is in a thriving neighborhood, is heavily timbered, has a good and never-falling stream of water running through it, and several mill-seats; abounds in iron ore and coal; has a fine sugar maple orchard on it, and a mineral spring, which I think equal to the White Sulphur or Bedford, and has now some forty or fifty acres of the land cleared. The soil is not surpassed by any in the country. I am disposed now to take \$4 per acre for it. Mr. Abraham Steel, who lives near it, will show it to any one wishing to purchase. The property in Prince William county, Virginia, will be shown by Eppa Hunton, esq., who is authorized to sell; or by Mr. Edwin W. Latimer, or Mr. Robert Hodgkin. I shall be in Brentsville about the middle of May, and will, in person, show the property to any one wishing to purchase.

HENIXY A. BARRON,

At Mrs. Gassaway's Boarding-House, D street, between 7th and 8th, south side, Washington.

MOTICE.

BALTIMORE AND WASHINGTON RAULROAD. BALTIMORE AND WASHINGTON RAILROAD.

On and after WEDNESDAY next, 9th instant, the station on Pennsylvania avenue will be vacated, and the new one on New Jersey avenue occupied.

The Passenger trains will leave the latter, commencing at 5 p. m., as usual, at 6 and 9 a. m. and 5 p. m. deliy, except on Sunday, when but two trains run, viz., at 6 a. m. and 5;p. m.

In making this change, the undersigned desires to call attention to the rules of the Company, in regard to the reception and delivery of merchandise:

Ist. Shippers are reminded, that in all cases a bill with full directions should accompany the goods.

This is for the protection of both parties, and unless compiled with the goods cannot be received.

2d. Consignees are notified that all merchandise must be removed on the same day upon which it is received, as the Company cannot hold itself responsible for any thing left in its house during the night.

The hours for reception and delivery of merchandise are from 8 a. m. till 4 p. m.

The undersigned takes occasion to remark that these are not new regulations, but he has been compelled to call attention to them from their frequent violation, which has caused much and serious inconvenience.

FURNISHING MAIL LOCKS & KEYS.

Post Oppics Department,
March 14, 1851.

T being desirable to substitute locks and keys of some other kind for those now in use for the mail service of the United States, specimen locks and keys, with procals to furnish the same, will be received and considered at the Post Office Department until the first day of July next. The different locks will be submitted to a commission for examination and report. Upon this report, con-

posals to furnish the same, will be received and considered at the Post Office Bepartment until the first day of July next. The different locks will be submitted to a commission for examination and report. Upon this report, contracts will, as soon as practicable, be entered into for furnishing such locks and keys for four years, with the right on the part of the Postmaster General, for the time being, to extend and continue the contract in force for an additional term of four years, by giving to the contractor a written notice to that effect, not more than nine nor less than six months before the termination of the first term of four years.

With a view of procuring the best lock at the lowest price, no kind of lock is prescribed as a standard, the Department relying for a selection on the mechanical skill and ingenuity which a fair competition, now invited, may develop. It is, however, proper to state that a lock suitable for the mail service should possess the following qualities, viz: durability, uniformity, lightness, and strength.

For the purpose of displacing simultaneously all the mail locks and keys now in use, about thirty thousand new locks and twenty thousand keys adopted, as well as the increase of the mail service; but it will probably never exceed in amount three thousand of the former and one thousand of the latter.

No lock will be considered if it be like any already in general use; nor will any one with whom the contract may be made be allowed to make, sell, or furnish, any lock or key similar to those contracted for for any other purpose or use than that of the Post Office Department.

The kind of lock adopted must be patented, and the patentee will be required, on entering into contract, make an assignment of his patent for the exclusive use and benefit of the Department, if the Postmaster General shall deem such requirement essential to the interests of the service. In case of the failure of the contract anew with any other party or parties as he may see fit, for furnishing similar locks a

the contract.

HUNT'S MERCHANTS' MAGAZINE AND COMMERCIAL REVIEW. Established, July, 1830, BY FREEMAN HUST, EDITOR AND PROPRIETOR.

THE Number for Detember, 1856, completed the twen ty-third semi-annual volume. The work has been enlarged since its commemment in July, 1859, and decivolume now contains more than seven hundred large of two pages. A few complete sets of the Magazine may be obtained at the publisher's office, 142 Fulton street, New York, neatly and substantially bound, for two dollars and a half per volume.

The following are a few of the many commendatory let ters received by the editor of the Morchants' Magazing from distinguished statesmen:

Letter from the Hon. Henry Clay.

Ashrand, 20th July, 1840.

Dear Sir: I wish to express to you the gratification I derived on receiving the July number of the Merchants Magazine and Commercial Review, from viewing your portrait in the beginning, and from reading your address to your friends at the end of it. When we feel under oh ligations to those who have contributed to our information and annusement, we are naturally destinute to possess all the knowledge of them, of their appearance, of the fea all the knowledge of them, of their appearance, of the fea tures of their countenance, and of the character and hab its of their mind, which we can acquire. You have placed your numerous readers (at least you have me, if I may not speak for them) under those obligations; and the number of your valuable work now before me, in some degree, satisfies the desire to which I have alluded.

I have become quite familiar with the Magazine and Review, and have no hesitation in expressing my humble opinion that it is eminently optified to the public regard and support. I collects and arranges, in good order, a large imount of valuable statistical and other information, highly useful not only to the merchant, but to the stateman, to the cultivator of the earth, to the marineture, to the mariner, in short, to all classes of the business and reading community.

to the mariner, in short, to all classes of the business and reading community.

Entertaining this opinion, I am glad that it has been, and hope that it may continue to be, liberally patronized.

Officing you cordial assurances of my seteem and regard, I am truly your friend and obedient servant,

Freeman Hunt, esq.

Extract of a letter from Hon. Millerd Pollmore.

"I have read it (Merchants' Magazine), with a good deal of attention, and have no hesitation in saying that I think it one of the most valuable periodicals had was ever published. To the merchant it seams quite indispensable, and to the statesman and man of general information almost equally desirable. It is a grand repository of useful facts and information, which can be found nowhere so well digested and so accessible as in these numbers. I only regret that I do not own the whole work."

Letter from the Hon. Thomas II. Benton.

where so well digested and so accessible as in these numbers. I only regret that I do not own the whole work."

Letter from the Hon. Thomas H. Benton.

Washinoros Ciri, April 20, 1849.

Mr. Freeman Hunt.—Sir: I owe you many thanks for the opportunities I have hed to read the Merchante' Magnains, and have found it in reality to be a magazine, and that well replentance, of all the useful matter which the title would imply, and presented with a fullness and clearness which delights while it instructs. It is, in fact, a merchants' magazine in the large acceptation of the term—merchants who go between nations, whose large operations bring many departments of knowledge, and a view of the state of the world, into daily rejudstion. But it is not the great merchant only, but the one of more modest, but, accertheless, of most useful operations—the merchant of the interior also—who will find this miggains to abound with the information the pursuit of his business and the elevation of the mercantle character requires. Nor is its utility at all confined to merchants, but extends to the legislator and diplomatist, and to all who are charged with managing the affairs of the interior, and have been in the habit for many years of carefully consulting it.

Very respectfully, sir, your obedient servant,

My Dear Sir: Have the goodness to place my name on your list of subscribers for the Merchants' Magazine. I regard it as an invaluable work for the use of all who would understand not merely commercial operations in this extending country, but the fiscal and commercial questions involved in the administration of the government.

I am, with great respect, your humble servant,

questions involved in the administration of the government.

I am, with great respect, your humble servant,
Freeman Hunt, esq. WILLIAM H. SEWARD.

The Merchant's Magazine is published monthly, at 142 Fulton street, New York, by Frakeman Hunt, and furnished to subscribers for Five Dollars a year, in advance, mar 24

BALTIMORE PIANO FORTE MANUFACTORY.

ELASTIC\* UNIVERSAL TOUCH.

WISE & BROTHIER, Manufacturers of Bondoir, Grand, and Synare Plano, request those who would be assured of a first class Plano, that ladder can perform on with the greatest possible advantage—one that the touch can be instantly adjusted to the exact strength of the first core of music, one that will stand in concert tune, one that the tone will not become shrill shad crating, that is chaste of style and elegantly made up of straight and regular curve lines, that will last an age—to give them a call. The ancient standing of the Baltimore Factory, and liberal patronage of citizens and others of the first order of artistic tasts and science, concedid at once the most critical, have been fully anticipated. Their recently finished Grand Piano, minutely reviewed by the most accomplished civil engineers and master artists, has been denominated truly a Grand Piano; also, that their late Boudoir, for style, power, and compans of tone, is not surpassed, if equalled, in the world. Friends and customers, please stop in and examine for yourselves.

J. J. WISE & BROTHER,

No. 31 Hanover street, Baltimore.

\* Elastic, because the keys recover their quiecent; in time equal to the displacing. Universal, because same instrument may be instantly altered to any dehard, or soft touch, so that ten thousand or more formers, all different, may each find the touch they

THIS NEW AND SPIENDID ESTABLISHMENT for the scientific treatment of the various diseases with which the human system is afflicted, is situated about three miles from the city of Buffalo, in a rural spot, and so accessible from all points as to be reached without inconvenience or delay.

A line of omnibuses runs from the steamboat landings in Buffalo to the springs every ten minutes.

The house and grounds are near the extensive and beautiful green-houses and nurseries of the Messra. Hodges & Bryants; and the scenery in all directions is unsurpassed, as regards either variety or beauty; embracing points of view, from which may be taken in at a glance the broad expanse of Lake Eric, the Niagara flowing majestically towards the Falls, extensive forests, and the "Queen City of the Lakes," with its moving panorama of steamboats and considers enterprise.

The water, taken immediately from the celebrated "Cold Spring," is unsurpassed as regards coldness and purity, by any in the United States. The house, recently erected at a cost of about seven thousand dollars, has been fitted up in a neat and elegant style, at considerable extra expense, and is sufficiently supacious to accomindate seventy-five patients.

Connected with the establishment, and constituting one of its attractions, are the fixtures and conveniences for innocent and healthful gymnastic exercises.

MEDICAL DEPARTMENT.

The institution is under the general supervision of S.

MEDICAL DEPARTMENT.

The institution is under the general supervision of S. M. Davis, M. D., Professor of the Theory and Practice of Medicine in Central Medical College, and Gree. W. Davis, M. D., formerly of Danaville, N. Y., the resident physician, and is permanently associated with the before mentioned gentleman as counsel, and associate of the medical board of control. And the friends of the establishment deem: I a matter of felicitation that the services of Miss Mary M. Taylor, a lady of high medical attainments, who has attended two courses of lectures in the Central Medical College, have been secured, and that female patients can at any time avail themselves of her invaluable aid and counsel.

The steward's department is under the control of a gen-tleman eminently qualified for that position; and unwea-ried pains will be taken to have every thing appertaining to the establishment arranged on a plan, and conducted in a way, to ensure the comfort, and promote the health and happiness of all who may wish to avail themselves of its benefits. Baths of all descriptions, adapted to the cure of the various forms of disease, and constructed on a scale not inferior to those of any other establishment in this country.

of the various forms of disease, and constructed on a scale not inferior to those of any other establishment in this country.

An enlightened public sentiment has everywhere repudiated a reckless use of drugs in the treatment of disease; while intolerable sufferings and broken constitutions have imperatively demanded "Heform." A rectum from a wide and fatal departure from the simplicity of Nature's laws is called for, alike by a rational love of happiness and the deplorable extigencies of our condition. Hydropathy, or a scientific use of water as a restorative and curative agent; as a practical substitution of a simple and retarrably efficacious mode of curing the sick; for that system of drugging, depleting, and cauterising, which, in obtaining the mastery ever disease, too frequently places the patient beyond the reach of further annoyance. The success of the various Water Cure establishments in this country, to say nothing of any other, has fully confirmed the liopis of the early discoverers and promulgators of the great truths upon which the system is founded, and renders verball communications innecessary. It is deemed sufficient to say, that the "Cold Spring Water Cure" will compare favorably with any of the well-conducted establishments of a similar character, and will be found equal to the best, as regards the order, convenience, and desirableness of its arrangements. The institution is now open for the reception of patients, and in full operation.
